# SEPTEMBER IS SUICIDE PREVENTION AWARENESS MONTH

September is National Suicide Prevention Month. All month, mental health advocates, prevention organizations, survivors, allies, and community members unite to promote suicide prevention awareness.

National Suicide Prevention Week is **September 4 - September 10**. It is a time to share resources and stories, as well as promote suicide prevention awareness.

World Suicide Prevention Day is **September 10**. It is a time to remember those affected by suicide, to raise awareness and to focus efforts on directing treatment to those who need it most.

## WARNING SIGNS OF SUICIDE:

The behaviors listed below may be some of the signs that someone is thinking about suicide.

### TALKING ABOUT:

- ▷ Wanting to die
- ▷ Great guilt or shame
- ▷ Being a burden to others

### FEELING:

- ▷ Empty, hopeless, trapped, or having no reason to live
- ▷ Extremely sad, more anxious, agitated, or full of rage
- ▷ Unbearable emotional or physical pain

### CHANGING BEHAVIOR, SUCH AS:

- ▷ Making a plan or researching ways to die
- ▷ Withdrawing from friends, saying goodbye, giving away important items, or making a will

- ▷ Taking dangerous risks such as driving extremely fast
- ▷ Displaying extreme mood swings
- ▷ Eating or sleeping more or less
- ▷ Using drugs or alcohol more often

If these warning signs apply to you or someone you know, get help as soon as possible, particularly if the behavior is new or has increased recently.

# 2022 Statistics on Depression and Suicide in Teens

Studies examining depression and suicide among teens reveal the following troubling statistics:

- Studies examining depression and suicide among teens reveal the following troubling statistics. In the past 10 years, suicide rates among young people ages 10–17 have increased by **more than 70 percent**.
- Suicide is the **second leading cause of death** in the United States among ages 15–24.
- Every day in the United States, there are more than 3,000 suicide attempts by high school students, according to the Jason Foundation.
- Current teen suicidal stats from the National Alliance on Mental Illness show that 20 percent of high school students have seriously considered suicide, and 9 percent have made suicide attempts.
- Rates of suicide in youth are twice as high in Black teens as compared to their white peers, according to the American Academy of Adolescent Psychiatry. Among Black male teens, the suicide rate increased by 60 over the past two decades.
- Adolescent suicide rates **significantly increased** in a number of states during the pandemic.
- **Half of LGBTQ teens** considered suicide in the past year, and 18 percent made a suicide attempt.
- The number of teens admitted to children's hospitals as a result of suicidal thoughts or self-harm has **more than doubled** during the last decade.
- The United States faces a severe shortage of practicing child and adolescent psychiatrists, with over **85 percent** of doctor's offices reporting difficulty locating mental healthcare providers for their patients under 18.

# MIND24-7

July 16th, 2022 marked the launch of 988, the new number for the 988 Suicide & Crisis Lifeline (formerly known as the National Suicide Prevention Lifeline). Much like how we already use 911 for emergencies, 988 will be used for mental health crises.

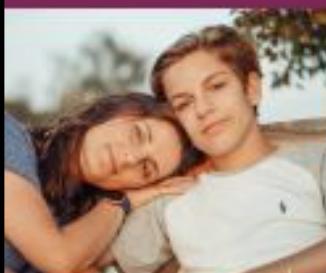

The new 988 dialing code will help people get assistance earlier in a crisis before it escalates. With proper education and awareness, everyone in the country will have an immediate, accessible mental health resource and those in crisis won't need to call 911 for mental health emergencies.

ARE  
YOU  
OK ?

Teens are facing more challenges than ever, and parents need a place to go for answers, support, and resources. The Parents Group, by notMYkid, is a recurring meeting **Monday night at 6PM** open to parents of teens.

The Parents Group will focus on issues related to mental health, substance use, and overall obstacles facing teens today.

## THE PARENTS GROUP PRIMARY GOALS:

- **To provide education** about current issues that are affecting our kids and how to best communicate and protect them.
- **To provide support** in a safe space without judgement.
- **To provide access to available resources** and help give parents the tools necessary to prevent substance use and better support our kids.

We simply want to provide space for open and honest communication!

Meetings are free and participants are asked to keep group discussions confidential for the safety of all families and kids.

**PLEASE SCAN THE QR CODE TO REGISTER OR TO BE KEPT INFORMED OF FUTURE MEETING TIMES AND SCHEDULES.**

The Parents Group, hosted by notMYkid, will be facilitated by behavioral health staff to continue serving the company's mission. notMYkid is a non-profit organization that has been meeting the unique needs facing youth and their families in the community for over 20 years.

## Los estudios que examinan la depresión y el suicidio entre los adolescentes revelan las siguientes estadísticas preocupantes:

- Los estudios que examinan la depresión y el suicidio entre los adolescentes revelan las siguientes estadísticas preocupantes. En los últimos 10 años, las tasas de suicidio entre los jóvenes de 10 a 17 años han aumentado en **más del 70 por ciento**.
- El suicidio es la **segunda causa principal de muerte** en los Estados Unidos entre las edades de 15 a 24 años.
- Cada día en los Estados Unidos, hay más de 3000 intentos de suicidio por parte de estudiantes de secundaria, según la Fundación Jason.
- Las estadísticas actuales de suicidio de adolescentes de la Alianza Nacional sobre Enfermedades Mentales muestran que el 20% de los estudiantes de secundaria han considerado seriamente el suicidio, y el 9% han hecho intentos de suicidio.
- Las tasas de suicidio en los jóvenes son dos veces más altas en los adolescentes afros en comparación con sus pares blancos, según la Academia Americana de Psiquiatría Adolescentes. Entre los adolescentes varones afros, la tasa de suicidio aumentó en 60 en las últimas dos décadas.
- Las tasas de suicidio adolescente **aumentaron significativamente** en varios estados durante la pandemia.
- **La mitad de los adolescentes LGBTQ** consideraron el suicidio en el último año, y el 18% hizo un intento de suicidio.
- El número de adolescentes ingresados en hospitales infantiles como resultado de pensamientos suicidas o autolesiones se ha **más que duplicado**. Los Estados Unidos enfrentan una grave escasez de psiquiatras de niños y adolescentes en ejercicio, con más del **85%** de los consultorios médicos que informan dificultades para localizar proveedores de atención médica mental para sus pacientes menores de 18 años durante las últimas décadas.

## Próximas presentaciones para la comunidad

El 16 de julio de 2022 marcó el lanzamiento de 988, el nuevo número para la línea de vida 988 Suicide & Crisis (anteriormente conocida como la línea de vida nacional de prevención del suicidio). Al igual que ya usamos el 911 para emergencias, el 988 se usará para crisis de salud mental.

El nuevo código de marcación 988 ayudará a las personas a obtener ayuda antes de que una crisis se intensifique. Con la educación y la concientización adecuadas, todos en el país tendrán un recurso de salud mental inmediato y accesible y aquellos en crisis no necesitarán llamar al 911 para emergencias de salud mental.
